The Scheme

Scheme Name	Windsor Court Road
Scheme Address	Windsor Court Road, Working
Postcode	GU24 8LH
Region	South
Scheme Manager	
Scheme Tel. No	-
Scheme Inspection Completed	Yes
Enforcing Fire Authority	Surrey Fire and Rescue
Other staff in attendance	None
Number of on-site Accent staff	None
Number of other (non-Accent) staff	Contract Cleaners in common areas

The Building

Accommodation Type	Gar (S3
Build Date	Jan
Number Of Homes	53
Homes breakdown	Bun
External wall construction	Fac
External wall finish	Cer Cla
Roof construction	Tim
Roof covering	Flat
PEEPs in place where necessary	N/A
Current Evacuation Strategy	Stay
Conversion or purpose-built	Pur
Number of storeys	1, 2
Number of floors on which car parking is provided	0
Is there a habitable basement?	No
Number of internal Staircases (protected or unprotected?)	One
Number of External Staircases	Nor
External Balcony part of escape route?	N/A
Unusual features	Nor
Building Access Conditions for Fire Brigade	Veh

Comment

Other Sources of Ignition

Is there a no smoking policy in place, which is enforced and adhered to?	Yes
Comment	No evidence of smoking within the communal areas.
Adequate security against arson?	Yes
Comment	Electronic door entry system in place.
Are refuse/recycling bin areas managed and suitably located?	Yes
Comment	These are located at the rear of the building and are in a purpose built area.
Are there communal cooking facilities at this scheme?	No
Comment	

Housekeeping

Are all electrical/intake/service cupboards secure and free from waste, contractors waste and and residents personal items?	general	Yes		
Comment		All clear at the time of the	audit.	
Are unnecessary accumulations of combustible materials or wa avoided?	ste	Yes		
Comment				
Are combustible materials and substances separated from ignit sources and stored appropriately?	ion	N/A		
Comment				
Furniture/furnishings in good condition, fire retardant/resistant a comply with modern standards and regulations?	nd	No		
Comment		A chair is located within the communal area. No evidence of any fir rating. This is to be removed. Housing partner to arrange.		
Observation	Priority	Referred To	Required By:	Task ID

Satisfactory location of the bin area.

Other Significant Fire Hazards

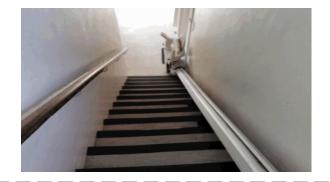

Are all other significant fire hazards adequately controlled?	Yes
Comment	

Means of Escape from Fire

Is it considered that the building is provided with reasonable means of escape in case of fire?	Yes
Comment	All were clear at the time of the audit.
Escape routes unobstructed and safe to use?	Yes
Comment	
Exits immediately openable without a key and/or failsafe's function correctly?	Yes
Comment	
Reasonable distances of travel where there is a single/alternative direction of travel?	Yes
Comment	
Escape routes lead to final exits and open in direction of escape where necessary?	Yes
Comment

Main evacuation areas clear at the time of the audit.

Fire Spread and Development

Is it considered that the compartmentation is of a reasonable standard?

Comment

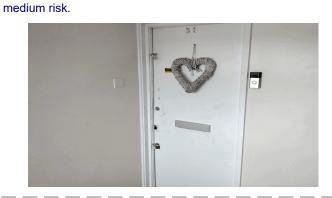

Is there reasonable limitation of surface finishes that might promote fire spread (walls, floors, ceilings)? Comment

Yes

Some areas have new cables going through walls. These need to be fire stopped. Job raised. Yes

Are fire dampers/shutters provided in ducts/refuse chutes to protect means of escape against fire, smoke and combustion products?	No
Comment	
As far as can be reasonably ascertained, is the compartmentation within roof spaces of a satisfactory standard?	Yes
Comment	
Loft hatches fire resisting?	Yes
Comment	1 hour rated loft hatches in both blocks.
As far as can be reasonably ascertained, is the fire stopping above cross corridor fire doors within suspended ceiling void of a satisfactory standard?	Yes
Comment	
Do external walls, doors, windows and anything attached to the exterior, limit fire spread?	Yes
Comment	
If Smoke Control Systems (AOV's) are fitted, are the records of annual testing available?	N/A
Comment	
Are roller shutter doors that are required to be FR, fire resisting and self-closing?	N/A
Comment

Emergency Escape Lighting

Is the emergency lighting correctly specified and installed as per current standards? Comment	Yes
Emergency lighting units in good condition and securely fixed to walls/ceilings? Comment	Yes
Records of monthly/annual testing available?	Yes
Comment	Last test August 2024.
Fire Safety Signs and Notices	
Fire Safety Signs and Notices Are the correct Fire Action/Advice notices displayed in prominent locations within the common areas?	Yes
Are the correct Fire Action/Advice notices displayed in prominent	Yes These are posted throughout the block's.
Are the correct Fire Action/Advice notices displayed in prominent locations within the common areas?	

MIS-AMS ActiveH - Fire Risk Assessment Report

Is there suitable LIFT signage i.e. do not use in case of fire?	N/A
Comment	
Do common area fire doors display the correct signage on both sides where applicable?	Yes
Comment	

Observation	Priority	Referred To	Required By:	Task ID

Satisfactory signage throughout both blocks.

Means of giving Warning in case of Fire

Is the scheme fitted with a communal area fire alarm?

Comment

Fire Extinguishing Equipment

Is fire extinguishing equipment and/or fixed fire fighting installations provided at this scheme? Comment

Management of Fire Safety

Are these premises regulated by the Building Safety Regulator under the Building Safety Act?	No
Comment	
Are there other Responsible Persons who share or have fire safety duties in respect of the premises?	Ye
Have all details required by regulations been shared with all other Responsible Persons?	Ye
Comment	All
Have all details required by regulations to be shared with us from other Responsible Persons been received and recorded?	Ye

Comment

No

This has been recently been decommissioned. Detection in all flats due to be upgraded tho an LD2 System.

No
No
Yes
Yes
All information is shared with the Housing Partner.
Yes

Will this FRA be shared will all other Responsible Persons for the premises?	Yes
Comment	
How will this sharing be achieved?	This is held on M files and is available on request.
Is an office or IL scheme being inspected?	N/A
Comment	
IL Schemes & Regional Offices - Are there sufficient numbers of qualified Fire wardens?	N/A
Comment	
Offices - Are there suitable arrangements for ensuring the premises are evacuated?	N/A
Comment	
Offices - Are there suitable arrangements for evacuating disabled people?	N/A
Comment	
Offices - Suitable arrangements for meeting the fire service on arrival and proving relevant information? Comment	N/A
	N/A
Offices/IL Schemes - Is there a suitable assembly point?	N/A
Comment	N/4
Offices - Are fire drills carried out at appropriate intervals?	N/A
Comment	
Passenger Lift	
Is the scheme fitted with a passenger lift?	No
Comment	
Premises Inspection Box	
Is there a premises information box for fire & rescue service use?	No
Comment	
Evacuation Policy	
Are there suitable arrangements for summoning the fire service?	Yes
Comment	It is the responsibility of customers to call the emergency service s.
Taking FRA findings, is the evacuation policy appropriate for the scheme as per latest guidance? Comment	Yes

Engagement with Residents

Comment	This is posted on the notice boards in the main entrances of both blocks.
	•

All evacuation information is posted throughout the blocks.

FRA Frequency

Taking the findings of this assessment into account, is the frequency of the FRA correct?	Yes
Comment	
Miscellaneous	
Are there any other observations/actions to raise that are not covered above.	No
Are there fire related remedial works required at this property, that will affect the fabric of the building?	No
Comment	
Were there any unsatisfactory aspects of the Fire Risk Assessment? (Visible on Building Safety Report).	No

Risk Calculator - Fire

The following risk estimator is based on the general health and safety risk level estimator contained within BS 8800: 1996. Guide to occupational health and safety management systems.

1. Taking into account the fire prevention measures observed at the time of this risk assessment, it is considered that the hazard from the fire (the probability of ignition) at this building is:

LOW MEDIUM	X	HIGH	
------------	---	------	--

2. Taking into account the nature of the building, the occupants, the fire protection afforded and any procedural arrangements observed at the time of the assessment, it is considered that the consequences for life safety in the event of a fire would be:

MINOR	MAJOR	X	CRITICAL	

The definition of the above terms is as follows: *FRA Review Frequency*

MINOR	Outbreak of fire is unlikely to result in serious injury or death of any occupant (other than the occupant sleeping in a bedroom in which a fire occurs).
MAJOR	An outbreak of fire could result in injury of one or more occupants, but is unlikely to lead to fatalities.
CRITICAL	There is significant potential for serious injury or death of one or more occupants.

3. The above estimates are then read into the following matrix table to give the overall risk level for the site:

Fire Hazard	Minor	Major	Critical
Low	Trival	Tolerable	Moderate
Medium	Tolerable	Moderate	Substantial
High	Moderate	Substantial	intolerable

When the level of risk is established, the action level can be read from the table below:

Asset ID: 24569

Windsor Court Road, Working

Risk Level	Guide to actions and appropriate timescales
Trivial	No action is required
Moderate	Efforts should be made to reduce the risk level and this should be carried out within the specified time periods.
Substantial	Considerable resources may have to be allocated to reduce the risk level. It may be necessary to limit the occupation of some parts until urgent remedial action is taken.
Intolerable	The building (or the relevant area) should not be occupied until the risk is reduced.

The Overall Risk Level for this asset is:	Moderate
