(Boilers)

Comment

Comment

Valid LGSR held on file for residential flats that contains gas

appliances?
Comment

Are smoke/heat detectors within General Needs flats subject to an

annual inspection and the results

Comment

Yes

Gas central heating to each flat.

N/A

No gas to communal area.

Yes

Gas safety certificate for the flats is recorded on active H and M files and dated as 22/12/2023.

Yes

The annual gas safety inspection for each flat has been completed flat 2 sample taken Heat and smoke detectors tested also Co2 completed on

22/12/2023.

Other Sources of Ignition

Is there a no smoking policy in place, which is enforced and adhered

to?

Comment

Comment

Adequate security against arson?

Are refuse/recycling bin areas managed and suitably located?

Are there communal cooking facilities at this scheme?

Comment

Comment

Yes

No smoking policy in all communal areas.

Yes

Keypad and trades access secure at time of inspection and internal thumb turn to exit

Yes

Storage area for bins locked on day of inspection.

No

Housekeeping

Are all electrical/intake/service cupboards secure and free from general

waste, contractors waste and and residents personal items?

Are unnecessary accumulations of combustible materials or waste

avoided?

Comment

Yes

All secure at time of inspection.

No

MIS-AMS ActiveH - Fire Risk Assessment Report

Page 6 of 13

Generated 03/01/2024 16:07:05

**BLK 1-6 Skells Court, Stamford** Asset ID: 24334 Comment Yes Are combustible materials and substances separated from ignition sources and stored appropriately? Comment N/A Furniture/furnishings in good condition, fire retardant/resistant and comply with modern standards and regulations? Comment Other Significant Fire Hazards Are all other significant fire hazards adequately controlled? Yes Comment Means of Escape from Fire Yes Is it considered that the building is provided with reasonable means of escape in case of fire? Comment A single communal staircase with final exit only each landing has a communal fire door. Yes Escape routes unobstructed and safe to use? Comment Yes Exits immediately openable without a key and/or failsafe's function correctly? Comment Thumb turn easy exit to safe air. Reasonable distances of travel where there is a single/alternative Yes direction of travel? Comment Yes Escape routes lead to final exits and open in direction of escape where necessary? Comment Fire Spread and Development Yes Is it considered that the compartmentation is of a reasonable standard? Comment This block is provided with one-hour compartmentation to the stair enclosure and landings, and between flats. Landing fire doors and other doors are FD30. Yes

Is there reasonable limitation of surface finishes that might promote fire spread (walls, floors, ceilings)?

spread (walls, floors, ceilings)?

Comment

Are fire dampers/shutters provided in ducts/refuse chutes to protect means of escape against fire, smoke and combustion products?

All finishes will not enable fire spread..

N/A

Asset ID: 24334 **BLK 1- 6 Skells Court, Stamford** Comment Yes As far as can be reasonably ascertained, is the compartmentation within roof spaces of a satisfactory standard? Comment The roof compartmentation meets approved code Doc B32.8 Loft hatches fire resisting? Yes Comment As far as can be reasonably ascertained, is the fire stopping above N/A cross corridor fire doors within suspended ceiling void of a satisfactory standard? Comment No Do external walls, doors, windows and anything attached to the exterior, limit fire spread? Comment The external walls doors and windows will not propagate fire spread around the envelope of the building. Yes If Smoke Control Systems (AOV's) are fitted, are the records of annual testing available? Comment N/A Are roller shutter doors that are required to be FR, fire resisting and self-closing? Comment **Emergency Escape Lighting** Yes Is the emergency lighting correctly specified and installed as per current standards? Comment This block meets Code of practice BS 5266-1:2016. Yes Emergency lighting units in good condition and securely fixed to walls/ceilings? All equipment secure at time of inspection. Comment Records of monthly/annual testing available? Comment Tunstalls carry out the monthly and annual testing of the emergency light system the latest inspection monthly recorded 11/12/2023 and annual dated 20/9/23.

### **Fire Safety Signs and Notices**

Are the correct Fire Action/Advice notices displayed in prominent locations within the common areas?

Comment

Directional fire escape signage in place and adequate?

Yes

New stay put procedure signage installed.

All uploaded to active H and M files.

N/A

Is there suitable LIFT signage i.e. do not use in case of fire?

Comment

Comment

Do common area fire doors display the correct signage on both sides where applicable?

Comment

Single staircase one direction of travel no requirement.

N/A

Yes

No

## Means of giving Warning in case of Fire

Is the scheme fitted with a communal area fire alarm?

Comment

No communal area alarm block has smoke detection and flats have smoke detection.

### Fire Extinguishing Equipment

Is fire extinguishing equipment and/or fixed fire fighting installations provided at this scheme?

Comment

No

## Management of Fire Safety

Are these premises regulated by the Building Safety Regulator under the Building Safety Act?

Comment

Will this FRA be shared will all Accountable Persons for the premises?

Comment

How will this sharing be achieved?

Are there other Responsible Persons who share or have fire safety duties in respect of the premises?

Have all details required by regulations been shared with all other Responsible Persons?

Comment

Have all details required by regulations to be shared with us from other Responsible Persons been received and recorded?

Comment

Will this FRA be shared will all other Responsible Persons for the premises?

Comment

Yes

Block complies with Reg 38 of the building regulations ref1.

Yes

The FRA will be held on active H if residents or any other person's wish to look at the FRA the details will be shared and communicated on request.

Communication with all parties with responsibility.

Yes

Yes

Yes

Yes

Section 38 building regs provides fire safety information to the responsible person (Accent) to manage effectively.

**BLK 1-6 Skells Court, Stamford** Asset ID: 24334 How will this sharing be achieved? Through communication with residents and Accent staff the FRA is all available on the website and I formation also on active H and M files and the website. Is an office or IL scheme being inspected? No Comment **Passenger Lift** No Is the scheme fitted with a passenger lift? Comment **Premises Inspection Box** Is there a premises information box for fire & rescue service use? No Comment **Evacuation Policy** Yes Are there suitable arrangements for summoning the fire service? Comment Residents call the fire and rescue service in the event of a fire. Yes Taking FRA findings, is the evacuation policy appropriate for the scheme as per latest guidance? Comment **Engagement with Residents** Has information of fire procedures been disseminated to residents? Yes Comment When residents move into the flats they are given

Is general fire safety information disseminated to residents?

Comment

When residents move into the flats they are given fire safety advice and also leaflets and a link into the website to look at the FRA and further fire safety information.

Yes

Fire routine notices are located in the communal area with advice on the stay put policy.fire safety campaigns are also published on the website. We are currently identifying All our residents and empowering direct contact hard copies of the evacuation policy for there block.

## FRA Frequency

Taking the findings of this assessment into account, is the frequency of the FRA correct?

Yes

Comment

The fire safety strategy for this scheme meets the required legislation.

## **Miscellaneous**

Are there any other observations/actions to raise that are not covered above.

No

Are there fire related remedial works required at this property, that will affect the fabric of the building?

No

Comment

Were there any unsatisfactory aspects of the Fire Risk Assessment? (Visible on Building Safety Report).

No

#### **Risk Calculator - Fire**

The following risk estimator is based on the general health and safety risk level estimator contained within BS 8800: 1996. Guide to occupational health and safety management systems.

systems.				
_		evention measures observention measures observention the fire (t		
LOW	X	MEDIUM	нідн	
any procedural	arrangements ob	of the building, the occup served at the time of the a e event of a fire would be:	ssessment, it is consider	
MINOR		MAJOR X	CRITICAL	

The definition of the above terms is as follows: FRA Review Frequency

MINOR	Outbreak of fire is unlikely to result in serious injury or death of any occupant (other than the occupant sleeping in a bedroom in which a fire occurs).
MAJOR	An outbreak of fire could result in injury of one or more occupants, but is unlikely to lead to fatalities.
CRITICAL	There is significant potential for serious injury or death of one or more occupants.

3. The above estimates are then read into the following matrix table to give the overall risk level for the site:

Fire Hazard	Minor	Major	Critical
Low	Trival	Tolerable	Moderate
Medium	Tolerable	Moderate	Substantial
High	Moderate	Substantial	Intolerable

When the level of risk is established, the action level can be read from the table below:

Risk Level	Guide to actions and appropriate timescales
Trivial	No action is required
Moderate	Efforts should be made to reduce the risk level and this should be carried out within the specified time periods.
Substantial	Considerable resources may have to be allocated to reduce the risk level. It may be necessary to limit the occupation of some parts until urgent remedial action is taken.
Intolerable	The building (or the relevant area) should not be occupied until the risk is reduced.

The Overall Risk Level for this asset is:	Trivial
