Gary Bredin AlFireE

It is sensible to have arrangements in place to ensure the consistency of Fire Risk Assessments in terms of the assessment of risk and mitigations proposed. In this regard Accent peer validate around 20% of reports, which are available within our audit system.

The Scheme

Scheme Name Wimbledon Road

Scheme Address Wimbledon Road

Postcode

Region South

Scheme Manager

Scheme Tel. No -

Scheme Inspection Completed Yes

Enforcing Fire Authority Surrey Fire and Rescue service.

Other staff in attendance None

Number of on-site Accent staff None

Number of other (non-Accent) staff

Contract Cleaners in common areas

The Building

Accommodation Type Garage and Car Parking Bays (S45), General Needs

(S30), Peerless General Needs - LSVT (S29)

Build Date Jan 1 1963

Number Of Homes 73

Homes breakdown Garage, House, Maisonette

External wall construction Concrete Block, Facing Brick, Facing Brick

External wall finish Cement Render, Facing Brick, Hung Tiles, Paint

Render, UPVC Cladding

Roof construction Concrete, Timber, Timber

Roof covering Flat Roof, Interlocking Pitched, Plain Pitched

PEEPs in place where necessary N/A

Current Evacuation Strategy Stay Put (Delayed) Evacuation

Conversion or purpose-built Purpose Built

Number of storeys 0, 2, 4

Number of floors on which car parking is provided 0

Is there a habitable basement?

Number of internal Staircases (protected or unprotected?)

One protected

Number of External Staircases None

External Balcony part of escape route? Yes

Unusual features Balcony leading to maisonettes.

Building Access Conditions for Fire Brigade

Vehicular Access to one or more elevations

Electrical Sources of Ignition

Electrical installation within common areas in good condition and no

obvious damage?

Comment

Valid Electrical Installation Condition Reports held on file? (Common

Areas & General Needs Flats)

Electrical App/PA Testing - tested within past 12 months?

Comment

Comment

Absence of trailing leads and adapters? Yes

Comment

Evidence that mobility scooters are not being stored/charged in

common areas?

Comment

Yes

During the audit it was noted that a new electrical cable had been horizontally installed in a block. This requires metal clips every 300mm. Surveyor dealing.

Yes

Next test August 2026

N/A

No

Asset ID: 24443 Wimbledon Road Is there a purpose built mobility scooter store/charging area? No Comment Does the building have a lightning protection system? N/A N/A Is the protection system adequately maintained? Comment Gas installations No Is there a commercial/domestic gas supply to the scheme? Comment Other Sources of Ignition Yes Is there a no smoking policy in place, which is enforced and adhered Comment Yes Adequate security against arson? Comment Electronic entry system in place. Yes Are refuse/recycling bin areas managed and suitably located? Comment Test date sticker out of date for the automatic shutter. Compliance department dealing. N/A Are there communal cooking facilities at this scheme? Comment N/A Are reasonable measures taken to prevent fires as a result of cooking? Cooking in flats only. Comment Where there is extraction in communal kitchens, are filters and N/A ductwork changed/cleaned regularly? Comment Housekeeping Yes Are all electrical/intake/service cupboards secure and free from general waste, contractors waste and and residents personal items? Comment These require updating to vonform to the latest

Are unnecessary accumulations of combustible materials or waste

avoided? Comment

Are combustible materials and substances separated from ignition sources and stored appropriately?

N/A

standards. Yes

Comment

Furniture/furnishings in good condition, fire retardant/resistant and comply with modern standards and regulations?

Comment

N/A

Other Significant Fire Hazards

Are all other significant fire hazards adequately controlled?

Comment

Yes

Means of Escape from Fire

Is it considered that the building is provided with reasonable means of

escape in case of fire?

Comment

Escape routes unobstructed and safe to use?

Comment

Exits immediately openable without a key and/or failsafe's function

correctly? Comment

Reasonable distances of travel where there is a single/alternative

direction of travel?

Comment

Escape routes lead to final exits and open in direction of escape where

necessary?

Comment

Yes

Yes

No

The doors to the maisonettes and drying area in all blocks have key barrels. These need removing. Surveyor dealing and the work is being undertaken.

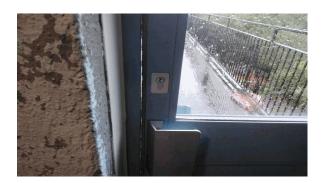

Yes

No

Observation Priority Referred To Required By: Task ID

Doors within the escape route have key barrels fitted these require removing. Surveyor informed and work to remove them is being undertaken.

Observation Priority Referred To Required By: Task ID

Maisonette areas clear at the time of the audit.

Observation Priority Referred To Required By: Task ID

Some areas had items stored within the communal areas. Housing partner dealing.

Fire Spread and Development

Is it considered that the compartmentation is of a reasonable standard?

Comment

Is there reasonable limitation of surface finishes that might promote fire Yes spread (walls, floors, ceilings)?

Comment

Are fire dampers/shutters provided in ducts/refuse chutes to protect means of escape against fire, smoke and combustion products?

Comment

As far as can be reasonably ascertained, is the compartmentation within roof spaces of a satisfactory standard?

within roof spaces of a satisfactory standard?

Comment

Loft hatches fire resisting?

Comment 1 hour steel.

As far as can be reasonably ascertained, is the fire stopping above cross corridor fire doors within suspended ceiling void of a satisfactory standard?

Comment

Yes

Yes

Yes

This area not checked during the audit.

Do external walls, doors, windows and anything attached to the

exterior, limit fire spread?

Comment

If Smoke Control Systems (AOV's) are fitted, are the records of annual

testing available?

Comment

Are roller shutter doors that are required to be FR, fire resisting and

self-closing?

Observation

Comment

Priority Referred To Required By: Task ID

Yes

N/A

N/A

Yes

Electrical cupboards in all blocks require fire stopping.

Emergency Escape Lighting

Is the emergency lighting correctly specified and installed as per current standards?

Comment

Emergency lighting units in good condition and securely fixed to Yes

walls/ceilings?

Comment

Records of monthly/annual testing available?

Comment

Fire Safety Signs and Notices

Are the correct Fire Action/Advice notices displayed in prominent

Yes

locations within the common areas?

Comment These are posted throughout the building

Directional fire escape signage in place and adequate?

Comment

Is there suitable LIFT signage i.e. do not use in case of fire?

Comment

Do common area fire doors display the correct signage on both sides where applicable?

Comment

Observation Priority Referred To Required By: Task ID

Yes

All emergency action notices are posted in the notice boards within all blocks.

Means of giving Warning in case of Fire

Is the scheme fitted with a communal area fire alarm?

Comment

Fire Extinguishing Equipment

Is fire extinguishing equipment and/or fixed fire fighting installations N/A provided at this scheme?

Comment

Portable fire extinguishers - appropriate type/number/position?

Comment

Correct signage displayed by each fire extinguisher?

Comment

Fire blanket in communal kitchen, secured to the wall, complete with N/A

signage?
Comment

Dry risers - Inlet/outlet boxes secured and/or securing straps fitted to N/A

outlet valves?

Records available of fire fighting equipment servicing within past 12 months?

Premises Inspection Box

Asset ID: 24443 Wimbledon Road	
Is there a premises information box for fire & rescue service use?	No
Comment	
Evacuation Policy	
Are there suitable arrangements for summoning the fire service?	Yes
Comment	It is the responsibility of the customers to contact the emergency services.
Taking FRA findings, is the evacuation policy appropriate for the scheme as per latest guidance? Comment	Yes
Engagement with Residents	
Has information of fire procedures been disseminated to residents?	Yes
Comment	
Is general fire safety information disseminated to residents?	Yes
Comment	These are posted in the information boards within all blocks.
FRA Frequency	
Taking the findings of this assessment into account, is the frequency of the FRA correct?	Yes
Comment	
Miscellaneous	
Are there any other observations/actions to raise that are not covered above.	No
Are there fire related remedial works required at this property, that will affect the fabric of the building? Comment	No
Were there any unsatisfactory aspects of the Fire Risk Assessment? (Visible on Building Safety Report).	No

Risk Calculator - Fire

The following risk estimator is based on the general health and safety risk level estimator contained within BS 8800: 1996. Guide to occupational health and safety management systems.

systems.					
1. Taking into a	ccount the fire pre	evention measures	 observed at th	ne time of this risk	
assessment, it is building is:	s considered that	the hazard from the	e fire (the prob	bability of ignition) a	at this
LOW	X	MEDIUM		HIGH	
any procedural	arrangements ob	of the building, the served at the time on the event of a fire wo	of the assessm	•	
MINOR		MAJOR	X	CRITICAL	

The definition of the above terms is as follows: FRA Review Frequency

MINOR	Outbreak of fire is unlikely to result in serious injury or death of any occupant (other than the occupant sleeping in a bedroom in which a fire occurs).
MAJOR	An outbreak of fire could result in injury of one or more occupants, but is unlikely to lead to fatalities.
CRITICAL	There is significant potential for serious injury or death of one or more occupants.

3. The above estimates are then read into the following matrix table to give the overall risk level for the site:

Fire Hazard	Minor	Major	Critical
Low	Trival	Tolerable	Moderate
Medium	Tolerable	Moderate	Substantial
High	Moderate	Substantial	Intolerable

When the level of risk is established, the action level can be read from the table below:

Risk Level	Guide to actions and appropriate timescales
Trivial	No action is required
Moderate	Efforts should be made to reduce the risk level and this should be carried out within the specified time periods.
Substantial	Considerable resources may have to be allocated to reduce the risk level. It may be necessary to limit the occupation of some parts until urgent remedial action is taken.
Intolerable	The building (or the relevant area) should not be occupied until the risk is reduced.

The Overall Risk Level for this asset is:	Trivial
