Type 1 (Common Parts Only - Non Destructive)

Gary Bredin AlFireE

It is sensible to have arrangements in place to ensure the consistency of Fire Risk Assessments in terms of the assessment of risk and mitigations proposed. In this regard Accent peer validate around 20% of reports, which are available within our audit system.

The Scheme

Scheme Name Middlemoor Road

Scheme Address Middlemoor Road

Postcode

Region South

Scheme Manager

Scheme Tel. No -

Scheme Inspection Completed Yes

Enforcing Fire Authority Surrey Fire and Rescue service

Other staff in attendance None

Number of on-site Accent staff None

Number of other (non-Accent) staff

Contract Cleaners in common areas

The Building

Accommodation Type Garage and Car Parking Bays (S45), General Needs

(S30), Peerless General Needs - LSVT (S29)

Build Date Jan 1 1961

Number Of Homes 121

Homes breakdown Flat, Garage, House

External wall construction Facing Brick

External wall finish Cement Render, Facing Brick, Hung Tiles, Paint

Render, UPVC Cladding

Roof construction Timber

Roof covering Flat Roof, Interlocking Pitched, Plain Pitched

PEEPs in place where necessary N/A

Current Evacuation Strategy Stay Put (Delayed) Evacuation

Conversion or purpose-built Purpose Built

Number of storeys 3

Number of floors on which car parking is provided 0

Is there a habitable basement?

Number of internal Staircases (protected or unprotected?)

One protected

Number of External Staircases None

External Balcony part of escape route?

N/A

Unusual features None

#### **Electrical Sources of Ignition**

Electrical installation within common areas in good condition and no

obvious damage?

Comment

Valid Electrical Installation Condition Reports held on file? (Common

Areas & General Needs Flats)

Comment Next test 23rd July 2026

Electrical App/PA Testing - tested within past 12 months?

N/A

Comment

Absence of trailing leads and adapters? Yes

Comment

Comment

Evidence that mobility scooters are not being stored/charged in Yes

common areas?

Is there a purpose built mobility scooter store/charging area?

Yes

Yes

**Middlemoor Road** Asset ID: 24499 Comment N/A Does the building have a lightning protection system? Comment N/A Is the protection system adequately maintained? Comment Gas installations Is there a commercial/domestic gas supply to the scheme? No Comment Other Sources of Ignition Yes Is there a no smoking policy in place, which is enforced and adhered to? Comment Adequate security against arson? Yes Comment Electronic entry system in use. Are refuse/recycling bin areas managed and suitably located? Yes Bin Shute shutter test in date. Comment Are there communal cooking facilities at this scheme? No Comment Housekeeping Yes Are all electrical/intake/service cupboards secure and free from general waste, contractors waste and and residents personal items? Comment Compartment survey required in the electrical intake cupboards. Yes Are unnecessary accumulations of combustible materials or waste avoided? Comment N/A Are combustible materials and substances separated from ignition sources and stored appropriately? Comment N/A Furniture/furnishings in good condition, fire retardant/resistant and comply with modern standards and regulations? Comment

## Other Significant Fire Hazards

**Middlemoor Road** Asset ID: 24499

Are all other significant fire hazards adequately controlled?

Yes

Comment

#### Means of Escape from Fire

Is it considered that the building is provided with reasonable means of escape in case of fire?

Yes

Comment

Escape routes unobstructed and safe to use?

Yes

Comment

Exits immediately openable without a key and/or failsafe's function correctly?

Yes

Comment

Comment

Reasonable distances of travel where there is a single/alternative

Yes

direction of travel?

Escape routes lead to final exits and open in direction of escape where necessary?

Yes

Comment

Observation **Priority** Referred To Required By: Task ID

All areas were found to de clear at the time of the audit.

#### Fire Spread and Development

Is it considered that the compartmentation is of a reasonable standard?

Comment

Compartment survey required in the electrical intake cupboards.

Is there reasonable limitation of surface finishes that might promote fire spread (walls, floors, ceilings)?

Yes

Comment

Are fire dampers/shutters provided in ducts/refuse chutes to protect means of escape against fire, smoke and combustion products?

N/A

Comment

As far as can be reasonably ascertained, is the compartmentation within roof spaces of a satisfactory standard?

Comment

Loft hatches fire resisting?

Comment Metal co

As far as can be reasonably ascertained, is the fire stopping above cross corridor fire doors within suspended ceiling void of a satisfactory standard?

Comment

Do external walls, doors, windows and anything attached to the exterior, limit fire spread?

Comment

If Smoke Control Systems (AOV's) are fitted, are the records of annual testing available?

Comment

Are roller shutter doors that are required to be FR, fire resisting and self-closing?

Comment

Observation

loan working at heights. Yes

This area was not checked during the audit due to

Metal construction

Yes

N/A

N/A

Yes

Priority Referred To Required By: Task ID

All loft hatches are of steel construction and Fire resistant.

Observation	Priority	Referred To	Required By:	Task ID

Observation	Priority	Referred To	Required By:	Task ID
Flat fire door letter plate missing.	Internal - Medium	Project Manager (Building Safety)	02/12/2024	1877736

#### **Emergency Escape Lighting**

Yes Is the emergency lighting correctly specified and installed as per current standards?

Comment

Yes Emergency lighting units in good condition and securely fixed to

walls/ceilings? Comment

Records of monthly/annual testing available? Yes

Last drop test 4th March 2024 Comment

#### Fire Safety Signs and Notices

Yes Are the correct Fire Action/Advice notices displayed in prominent

locations within the common areas? Comment

Directional fire escape signage in place and adequate? Yes

Comment

Is there suitable LIFT signage i.e. do not use in case of fire? N/A

Comment

Yes Do common area fire doors display the correct signage on both sides

where applicable?

Comment External electrical intake cupboard door keep locked shut sign missing. This was replaced during the

audit.

#### Means of giving Warning in case of Fire

Is the scheme fitted with a communal area fire alarm? No

Comment

#### Fire Extinguishing Equipment

Is fire extinguishing equipment and/or fixed fire fighting installations provided at this scheme?

Comment

No

#### **Management of Fire Safety**

Are these premises regulated by the Building Safety Regulator under the Building Safety Act?

Comment

Will this FRA be shared will all Accountable Persons for the premises?

Comment

How will this sharing be achieved?

Are there other Responsible Persons who share or have fire safety duties in respect of the premises?

How will this sharing be achieved?

Is an office or IL scheme being inspected?

Comment

IL Schemes & Regional Offices - Are there sufficient numbers of qualified Fire wardens?

Comment

Offices - Are there suitable arrangements for ensuring the premises are

evacuated? Comment

Offices - Are there suitable arrangements for evacuating disabled

people?

Comment

Offices - Suitable arrangements for meeting the fire service on arrival

and proving relevant information?

Comment

Offices/IL Schemes - Is there a suitable assembly point?

Comment

Offices - Are fire drills carried out at appropriate intervals?

Comment

N/A

Yes

This is held on Mfiles for all staff to see.

No

N/A

N/A

N/A

N/A

N/A

N/A

N/A

No

### Passenger Lift

Is the scheme fitted with a passenger lift?

Comment

Page 10 of 14

Generated 24/10/2024 16:02:47

#### **Premises Inspection Box**

Is there a premises information box for fire & rescue service use?

Comment

No

#### **Evacuation Policy**

Are there suitable arrangements for summoning the fire service?

Comment

Taking FRA findings, is the evacuation policy appropriate for the scheme as per latest guidance?

Comment

Yes

It's the responsibility of the customers to summon the emergency services.

Yes

#### **Engagement with Residents**

Has information of fire procedures been disseminated to residents?

Comment

Is general fire safety information disseminated to residents?

Comment

Yes

These are posted on the information boards in the communal entrance.

Yes

These are posted throughout the building.

Observation Priority Referred To Required By: Task ID

Safety information posted on the information boards

#### FRA Frequency

Taking the findings of this assessment into account, is the frequency of the FRA correct?

Comment

Yes

#### **Miscellaneous**

Are there any other observations/actions to raise that are not covered above.

Are there fire related remedial works required at this property, that will affect the fabric of the building?

No

Comment

Were there any unsatisfactory aspects of the Fire Risk Assessment? (Visible on Building Safety Report).

No

#### **Risk Calculator - Fire**

The following risk estimator is based on the general health and safety risk level estimator contained within BS 8800: 1996. Guide to occupational health and safety management systems.

systems.					
_	-	evention measures t the hazard from th		he time of this risk bability of ignition) ខ	at this
LOW	X	MEDIUM		HIGH	
any procedural	arrangements of	_	of the assessr	he fire protection af ment, it is considere	
MINOR		MAJOR	V	CRITICAL	

The definition of the above terms is as follows: FRA Review Frequency

MINOR	Outbreak of fire is unlikely to result in serious injury or death of any occupant (other than the occupant sleeping in a bedroom in which a fire occurs).
MAJOR	An outbreak of fire could result in injury of one or more occupants, but is unlikely to lead to fatalities.
CRITICAL	There is significant potential for serious injury or death of one or more occupants.

3. The above estimates are then read into the following matrix table to give the overall risk level for the site:

Fire Hazard	Minor	Major	Critical
Low	Trival	Tolerable	Moderate
Medium	Tolerable	Moderate	Substantial
High	Moderate	Substantial	Intolerable

When the level of risk is established, the action level can be read from the table below:

Risk Level	Guide to actions and appropriate timescales
Trivial	No action is required
Moderate	Efforts should be made to reduce the risk level and this should be carried out within the specified time periods.
Substantial	Considerable resources may have to be allocated to reduce the risk level. It may be necessary to limit the occupation of some parts until urgent remedial action is taken.
Intolerable	The building (or the relevant area) should not be occupied until the risk is reduced.

The Overall Risk Level for this asset is:	Trivial
